

# ClientBase Windows & Ensemble Marketing ~ Home Page URL

## Update the Home Page URL

ClientBase gives you the ability to access the Ensemble Extranet directly from the Home tab in ClientBase Windows. Some databases may have an old URL stored as the default. Follow these directions to update to the correct URL.

1. Select **Global Defaults > Manager Defaults > Home Page URL**
2. Home Page URL: <http://agent.ensembletravel.com/>
