

Delta Vacations

February 22, 2018

WorldAgent Direct has changed their name to Delta Vacations. This change does not have a great impact on Agencies as the name entered for a provider is simply for reference. The URL for their site remains unchanged.

1. If you'd like to change the Provider name entry, go to **Utilities | Live Connect Providers**.
2. Modify WorldAgent Direct and simply update the name.

For agencies with only ClientBase Online:

1. Go to the Tools icon at the upper right and choose **Settings**.
2. On the next screen, click the **Live Connect Providers** link, and modify the entry for WorldAgent Direct there.
