

Repeating Business Percentage Report

This report compares sold ClientBase Res Cards (those that are not Cancelled) or ClientBase Reservations (those that are not Quoted) for two different periods of time and checks for repeating business

Dates are based on either Res Card Create Date (default) or Reservation Date Reserved,

There are two ways to run the report, either as in Detail or in Summary (default).

If run in Detail, each Res Card or Reservation is counted in each column and a percentage is displayed for each client profile. The breakdown of percentages for all Res Cards/Reservations and Profiles follows.

If run in Summary, only a breakdown of percentages for all Res Cards/Reservations and Profiles is printed.

Different branches can be run by typing the 3 digit branch number separated by a comma (i.e. 000,002) or leave as asterisk (*) to run for all branches.
