

## Report Writers

*Tres Technologies' goal is to match its customers with competent companies that have a proven history they can work with our products. While Trams Back Office and ClientBase Product and Services customers have had success in working with these companies, Tres Technologies does not own or control the companies and organizations listed. Therefore, by using these companies, our customers understand, acknowledge and accept that Tres Technologies cannot be held liable or responsible for any adverse event that takes place with the companies listed. Choosing a company or organization is strictly voluntary and done so at the sole risk of the customer.*

**PRODUCT NAME:** Custom Crystal Reports for ClientBase and Trams, Custom ClientBase Invoicing

**PRODUCT DESCRIPTION** - Reports are customized using your database to give you the results that you desire. Most of the reports we write are exported to Excel or CSV files for further manipulation, but many reports are saved as PDF files and emailed, or just printed. I have extensive knowledge of ClientBase and Trams database, tables, and data structure. Previously written reports range from group manifest, city pair and segment reports, rooming lists to customized data import routines to pull data from ClientBase and insert into other software.

**PRICING** - By the hour. Jobs are scoped and estimated in advance. No work is done until approved by you.
