OK Cancel

The first step to setting up your merge to pnr is to go into Global defaults, Merge to pnr defaults, and PNRsettings. There are two settings to choose from, Use API, and Clipboard. It is recommended that you use the API option if you are running Sabre Red Workspace (SRW) on your local workstation. There is a limitation when using Clipboard where you can only cut and paste up to 15 lines at a time. If you exceed 15 lines you will need to merge more than once. If accessing one of the two programs (ClientBase Windows or Sabre Red Workspace) via Terminal Services or remote desktop you will be limited to the Clipboard option only. The use of the API option is only available if both programs are accessed via the same environment (Both using Terminal Services or Both from your local machine).

Field Groups

Primary Address

Bill To Address

[5/«Company Name»\$]5/[«Title»]«First Name» «Last Name»\$5/«Address Line 1»[«Address Line 2»][«Apt/Suite»]\$5/«City» «State» «Zip»

Ship To Address

[5DL-«Company Name»\$]5DL-[«Title»]«First Name» «Last Name»\$5DL-«Address Line 1»[«Address Line 2»][«Apt/Suite»]\$5DL-«City» «State» «Zip»

Secondary Address

Alternate Address

Available Fields

Note: The following characters are not acceptable in the available fields for the field group Address, except for the dash character in the zip code/postal code field. (.,#&!?"').

When you see a User Defined you can preset that field so a dropdown menu is available to your agents. To preset User Defined Fields, go to Global defaults, General setup, and User Defined Fields. Unchecking the free flow button will not allow your agents to type in their own definitions. If size is noted below it is because Sabre requires a specific number of characters that need to go into the merge to pnr rule.

The screenshot displays the Sabre ClientBase software interface. The main window shows a user profile for Mr. Ken Able, including contact information, business and home phone numbers, and email addresses. A 'User Defined Fields' dialog box is open, showing a list of 'Courtesy Title' options: Dr., Mr., Mrs., Ms., Pastor, and Rev. The 'Mr.' option is selected. The dialog box has 'Allow Free Flow' checked and buttons for 'Add', 'Modify', 'Delete', and 'OK'.

<u>Available field</u>	<u>Field name in Profile</u>	<u>Size</u>	<u>Example</u>
Title (User Defined)	Courtesy Title	2 to 4	Mr.,Mrs.,Dr., Rev.
Company Name	Company Name		ABC Manufacturing
Middle Initial	Middle Initial	1	L
Middle Name	Middle Name		James
First Name	First Name		Robert
Last Name	Last Name		Able
Address Line 1	Address Line		123 Main St.
Address Line 2	Address Line 2		Second Floor
Apt/Suite	Apt/Suite		Apt. B
City (User Defined)	City		Los Angeles
State (User Defined)	State	2	CA
Zip code/Postal code (User Defined)	Zip code/Postal code	5-10 for the US	90210 90210-1624
Country	Country		USA

Field Groups

Phone (Communications tab set as type PHONE)

9«Area Code»-«Prefix/Suffix»-«First Character Description»

Fax (Communications tab set as type FAX)

9«Area Code»-«Prefix/Suffix»-«First Character Description»

<u>Available Field</u>	<u>Field in Profile</u>	<u>Size</u>	<u>Example</u>
Country code	First field in phone entry	1-4	1 for US, 44 for UK
Area code	Second field in phone entry	3	312
Prefix/Suffix	Third field in phone entry	8	555-1212
First character description	Do not use for Apollo		H,C,F
First two character description	Do not use for Apollo		
First three character description	Do not use for Apollo		
First four character description	Description	4	
Description (User Defined)	Description	Set as first four characters	

NOTE: Prebuild your Descriptions and uncheck allow free flow option under Global defaults/General setup/User Defined Fields so agents have the first character descriptions available for phone, e-mail, and fax merge to pnr entries from a

dropdown menu. Recommended first character description that best represents the type of phone number being stored for the rule.

Field Groups

E-mail (Communications tab set as type E-MAIL)

PE#«E-Mail Entry»#

<u>Available Field</u>	<u>Field in Profile</u>	<u>Size</u>	<u>Example</u>
E-mail Entry	Entry field		<p>* use for @ at symbol</p> <p>// use for the _ underscore symbol</p> <p>- use for the - dash symbol</p>
First character description			Do not use for Sabre
First two character descriptions			Do not use for Sabre
First three character description			Do not use for Sabre
First four character descriptions	Description	4	Do not use for Sabre

Description (User Defined) Description

NOTE: Character definitions used for e-mail entries per Sabre

*** use for @ at symbol**

// use for the _ underscore symbol

- use for the - dash symbol

Field Groups

Traveler Miscellaneous

TSA Domestic Date of Birth

3DOCS/DB/«Birthdate»/«Gender»/«Last Name»/«First Name»/«Middle Name»]«NAME FIELD POS» **Use for American Airlines only:**

4DOCS/DB/«Birthdate»/«Gender»/«Last Name»/«First Name»[/«Middle Name»]«NAME FIELD POS»

TSA International Passport

- **TSA rule for passport/international flights for all Airlines except AA:**
3DOCS1/P/«Issuing Country»/«Passport No.»/«Citizenship»/«Birthdate»/«Gender»/«Passport Expiration Date»/«Last Name»/«First Name»[/«Middle Name»]«NAME FIELD POS»
- **TSA rule for passport/international flights for American Airlines only:**
4DOCS1/P/«Issuing Country»/«Passport No.»/«Citizenship»/«Birthdate»/«Gender»/«Passport Expiration Date»/«Last Name»/«First Name»[/«Middle Name»]«NAME FIELD POS»

NOTES: ****If you have multiple passengers in the pnr you will need to add an H in front of the name field pos to indicate which is the primary passenger. You will only need to add the H to that one TSA rule during the merge to pnr preview. ****An itinerary, flight, needs to exist in the PNR before this info can go over. The name field and the 3DOCS can go in with the merge, but the live PNR expects an active flight.
